

Jorge A. Vasconcellos e Sá & Magda Pereira

ECONOMIC MYTHS AND ECONOMIC REALITIES

**Five mistakes we are told every single
day and the real sources of economic
growth**

INDEX:

I. Introduction

II. Economic myths:

2.1. Leprechaun economics: Forget Gross Domestic Product (GDP); use national income

2.2. Within economic blocks countries (and federal states) tend to diverge (not to converge)

2.3. Financing poorer countries leads them to fall behind?

2.4. Keynesianism is (increasingly) irrelevant

2.5. Industrialization is not the solution to create wealth

2.6. Concluding

III. Economic realities:

3.1. Our ignorance on the sources of economic growth

3.2. What if countries were companies?

3.3. The results

3.4. Conclusion

IV. Afterword
